QuickBooks Consulting

If you are doing bookkeeping with the help of accounting software, the odds are very high that you are using QuickBooks. In fact, nearly 90 percent of small and medium size companies in the United States and Canada use QuickBooks to keep track of their books.

So what's the problem? Well, maybe you are one of those unique companies who have mastered QuickBooks. More than likely though, you are a company who would say, "We do what we do well. But we would like to get more out of our QuickBooks!" Our staff of certified QuickBooks Professional Advisors can help.

- Consulting, troubleshooting and training. We show clients how to use and understand the program at your place of work. No need to take your staff off site and attend an expensive seminar. Ask your questions and receive helpful, accurate answers from our team of QuickBooks advisors. It will improve your bookkeeping processes and assist you in obtaining better information and reports from QuickBooks. Better information means better decisions regarding the growth and development of your company.
- Software installation and initial file setup. If you have never used QuickBooks or are unhappy with your current financial software, Cottrill Arbutina can install QuickBooks on your computer. We will design and set up all of the features necessary for your business to get the most out of QuickBooks, eliminating typical startup headaches, allowing you to be up and running in no time.
